

Thank you for checking our website. Our physical office is closed - but all our staff are working virtually, and we remain open for business.

If you need to contact us, our phone and email systems are working as normal.

To send us your personal tax information - please contact us by phone or email to arrange a secure DropBox link for electronic delivery.

If you are not able to provide your files electronically - please contact us and we can arrange a method of physical delivery. However, the electronic route will be faster. We're processing returns on a first-in-first-out basis.... So please bring us material as soon as you can (and notify us when you have uploaded everything). This lets us file quickly and unlock potential government benefits for you and your family.

We know these are difficult times, and wish health and security to all. [Click HERE for a link to our recent blog post\(S\)](#), commenting on how to make financial decisions in a time of crisis, and identifying **how you can access money through government programmes.**
